Analytical report

AR-26-TH-006085-01-THHGT

AR-26-TH-006085-01-THHGT

Sample Code

296-2026-00005867

1 Sample name Honey
Packaging glass with screw closure
Product Honey
Sampler Client
Number sample tubes 1
Type of seal Without seal
Amount 250 g
Reception temperature room temperature
Reception date time 09.04.2026
Start / End of analysis 09.04.2026 / 15.04.2026

Test results

LC-MS			
THHGT	Grayanotoxin in Food		
Method	Internal method		
		Result	Uncertainty Unit
Grayanotoxin I	2.512.73	µg/kg	
Grayanotoxin III		1.146.88	µg/kg

1: This information was provided by the customer. Data provided by the customer may have an impact on the validity of the test results and the re assessment.

The analysis results and evaluation refer exclusively to the submitted samples and the scope of investigation. The measurement uncertainty do not include possible variation by sampling, if not stated otherwise.
The norm "General requirements for the competence of testing and calibration laboratories (DIN EN ISO/IEC 17025:2018, chapter 7.8.6) require state the decision rule for the consideration of the expanded measurement uncertainty in the conformity assessment analysis results obtained the tested samples. Eurofins Food Integrity Control Services GmbH considers the expanded measurement uncertainty in case the analysis results exceed a legal limit or specification value. In case the analysis results do not exceed a legal limit or specification value, the expanded measurement uncertainty is not considered. Please contact us, if you have particular requirements differing from this standard procedure in order to set up an individual procedure according to your specific needs.

Assessment

Regarding the examined parameter the above mentioned value was detected.

A handwritten signature in blue ink, which appears to read "Lucia Lorenzo Parodi".

Signature

Scientist Assistant (Lucia Lorenzo Parodi)
